EXTERIOR

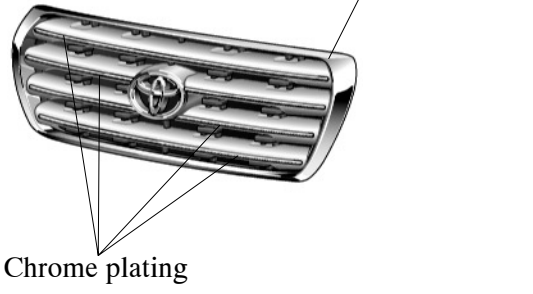

Front View

- A wide and dynamic appearance has been achieved by the combination of the three-dimensional engine hood profile, of which the surface curved in relief flows into the radiator grille and beltlines, and the horizontal layout of the radiator grille and headlights.
- To deliver SUV-like character styling, the radiator grille has been styled with a thick rectangular shape and chrome plating*1. On models for China*2 and the Middle East*3, a clear gold color is used on the outer frame of the radiator grill to accentuate the feeling of luxury.
- Large headlight assemblies, in which the multi-reflector headlights, Front Position lights, and front turn signal lights are integrated, have been provided to give a luxurious feel.

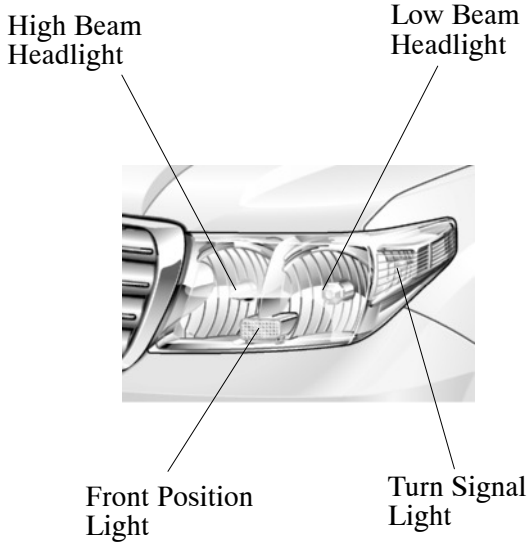

*1 : Except 9-seater models
*2 : Standard
*3 : Optional on models other than 9-seater models

081MO03TE

080MO30TE

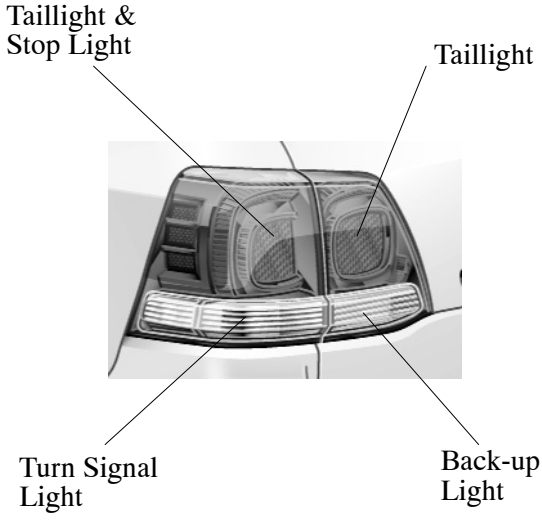

080MO04TE

Rear View

- By uniting the bulges on the left and right shoulder areas and the shapes of the left and right rear combination lights, powerful and trustworthy styling has been provided.
- In the rear combination light assemblies, large-diameter 2-LED lights are used. Thus, good visibility is given.

081MO04TE

080M006TE

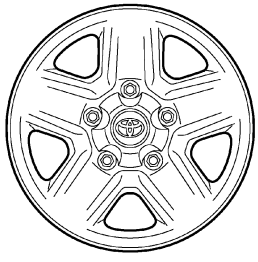

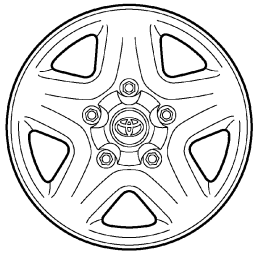

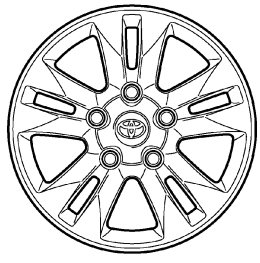

Side View

- Through the combination of a long cabin silhouette, a firm shoulder line, and a three-dimensional rocker surface, a powerful, dynamic appearance has been established.
- The sturdy-looking front and rear fenders express extreme off-road ground covering performance.

INTERIOR

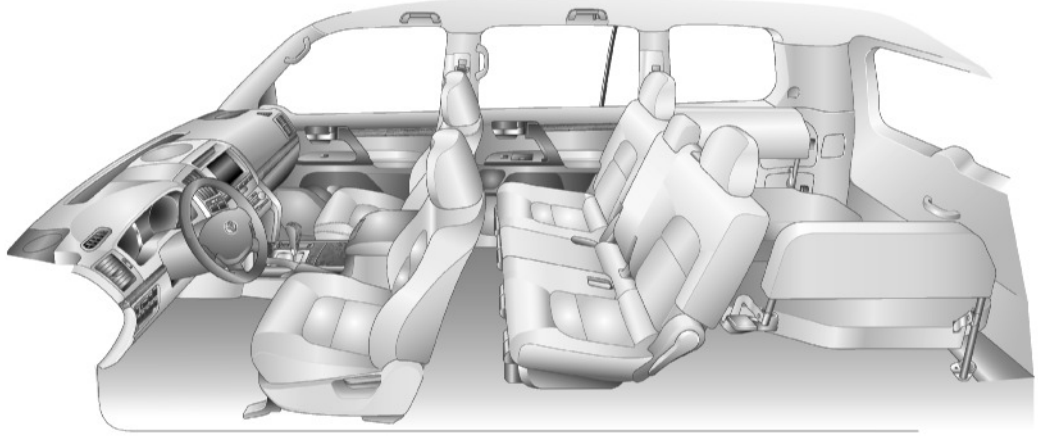

Based upon the sturdy, firm, solid-looking design, many functional feature enhancement, such as fitting power-train-related switches onto the center cluster panel and center console, a seat sliding rear No.1 seat, and a one-touch tumble mechanism, has been implemented, and the packaging of the interior has been made entirely chic and luxurious, and delivers the functionality which is helpful in off-road scenes and creating the trustworthy SUV-like space.

5-seater models (VX grade) 081MO09TE

7 & 8-seater models (VX grade) 081MO38S

9-seater models 081MO10TE

Instrument Panel

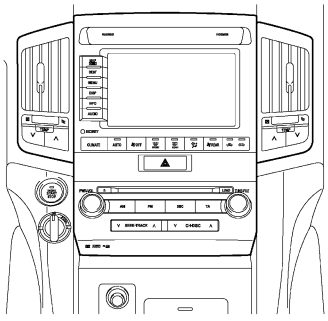

- In order to accentuate the quality and trustworthiness representing the Land Cruiser's identity, the instrument panel has been built up with a horizontal, steady axial character line, a voluminous center cluster with metallic vertical side bars, and a wide center console.
- On the metallic vertical side bar, the engine switch and the transfer position switch have been fitted. In addition, a knee pads have been fitted onto the lower sides of the center cluster. Through the combination of these, off-road functionality and SUV-like characteristics have been accentuated.

081MO11TE

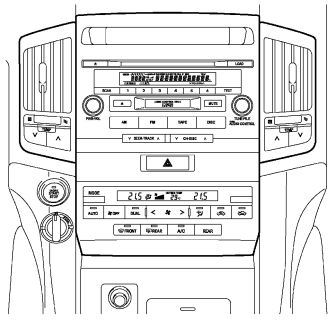

Center Cluster

- In order to achieve the easy-to-use layout, switches and indicators are placed by function.
- On VX grade models, the cluster surface has been given a chic and classy appearance by using a low-gloss-finished carbon tone.
- The following three types of center cluster panel are available; with the multi-display, without the multi-display and without an audio system.

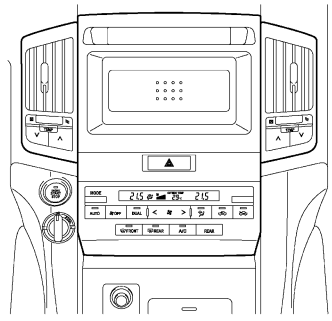

081MO12TE

With Multi-display System

081MO13TE

Without Multi-display System

081MO14TE

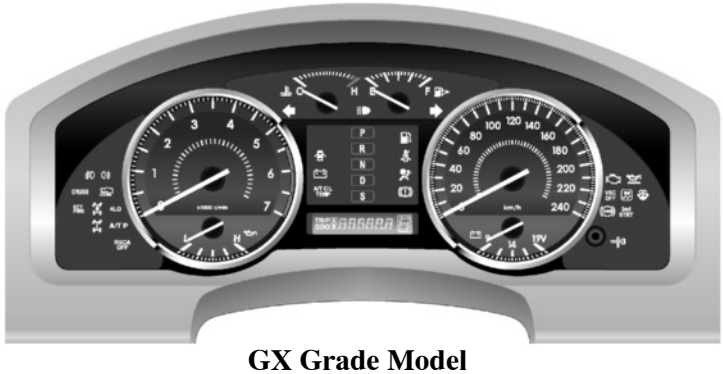

Without Audio System

Combination Meter

- In order to manage the vehicle's identity, a highly visible speedometer, tachometer, fuel gauge, engine coolant temperature gauge, engine oil pressure gauge, and voltmeter are organized, and clear-turquoise color is used in the illumination.
- An optitron display type combination meter, which has the multi-display in the center, is used on VX grade models.
- On GX grade models, the shift position indicator is provided in the center.

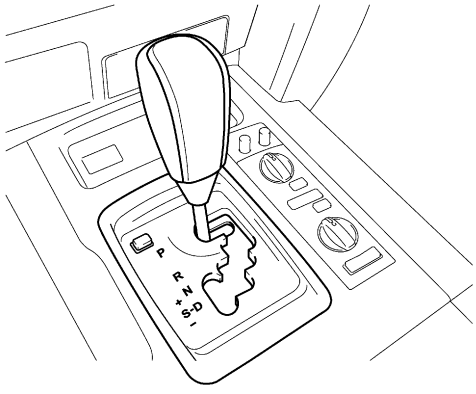

VX Grade Model 081MO15TE

GX Grade Model 081MO16TE

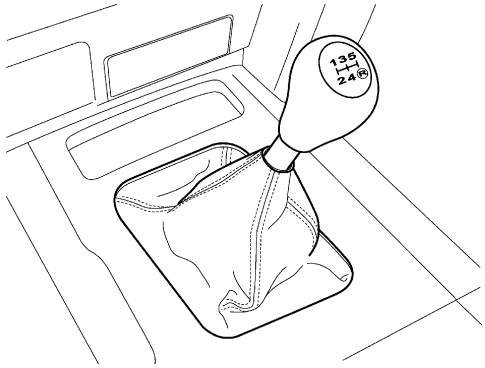

Shift Lever

- A gate type shift lever with an S-mode position is used on models with an automatic transmission.
- The following three types of shift knobs are available in combination with the steering wheel; a urethane-wrapped shift knob, leather-wrapped metallic shift knob and leather-wrapped wood-grain shift knob.

081MO17TE

Automatic Transmission

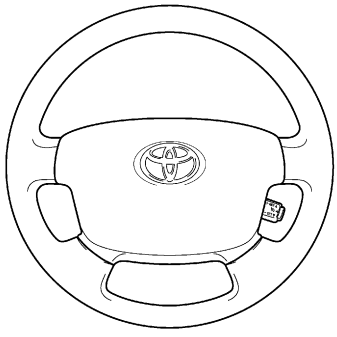

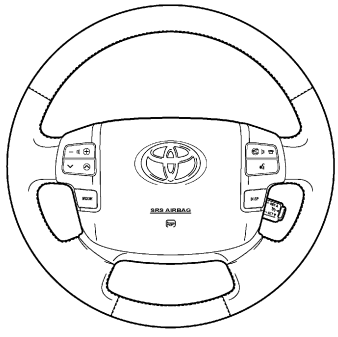

081MO18TE

Manual Transmission

Steering Wheel

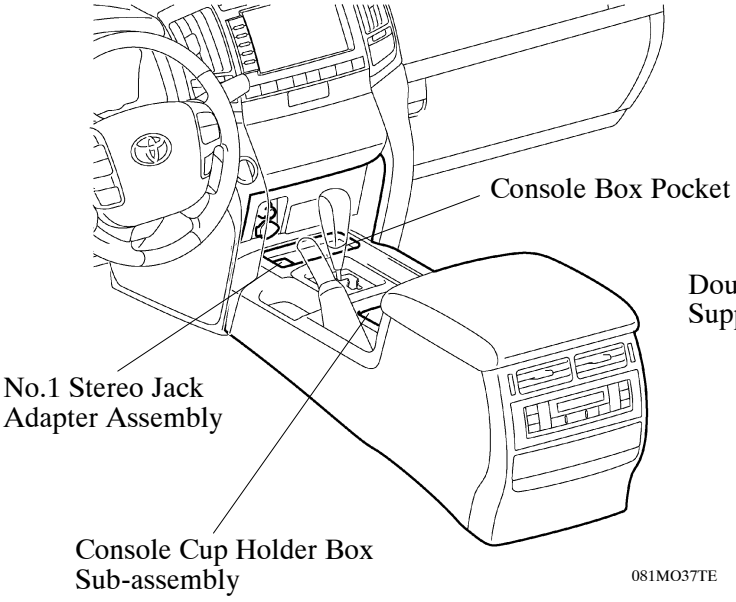

- The following three types of steering wheels are available: The 4-spoke Urethane-wrapped steering wheel, 4-spoke leather-wrapped steering wheel and the 4-spoke leather-wrapped wood-grain steering wheel.
- A newly designed steering pad switch is used, which allows the audio, multi-information display, telephone*1 and voice recognition*1 to be easily operated.
  *1: Telephone switch, and navigation voice recognition system switch are provided if the telephone, and navigation voice recognition system are optionally installed.
- The cruise control switch and the navigation voice recognition system switch have been incorporated in the steering wheel for ease of operation.

	4-Spoke Urethane-wrapped	4-Spoke Leather-wrapped	4-Spoke Leather-wrapped with Wood-grain

Equipment	Standard*2	Standard*3	Option*3, *4

*2: Only on GX grade models
*3: Only on VX grade models
*4: Steering wheels without the steering pad switch are available on all GX grade models for G.C.C. Countries except for 9-seater models.

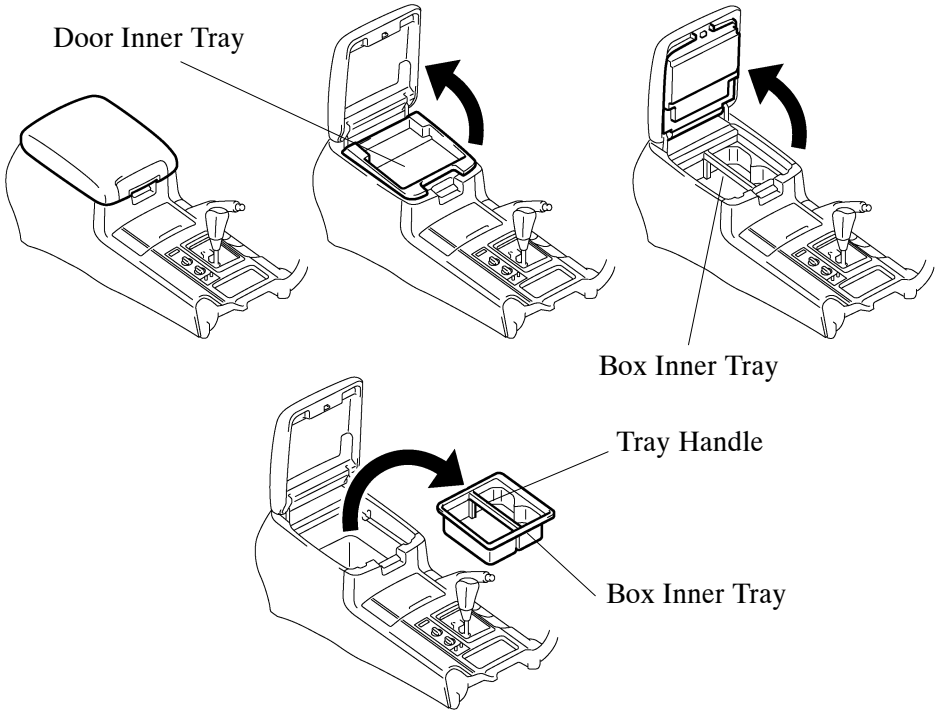

Console Box

- A small pocket is provided at the front of the center console to store small products such as mobile phones. In addition, for the drink cup holders located at the rear of the center console, cup holding devices that also hold small-size cups have been incorporated, thus improving the cup holding performance.
- Inside the large center consol box, in order to easily organize storage articles and improve accessibility to the bottom, a detachable inner tray with a built-in handle has been provided. By detaching the inner tray from the console box, large articles can be stored inside. In addition, another inner tray has been provided on the back of the console box door, improving the convenience.*
  *: Except for Chinese models

Cup Holder

EQUIPMENT

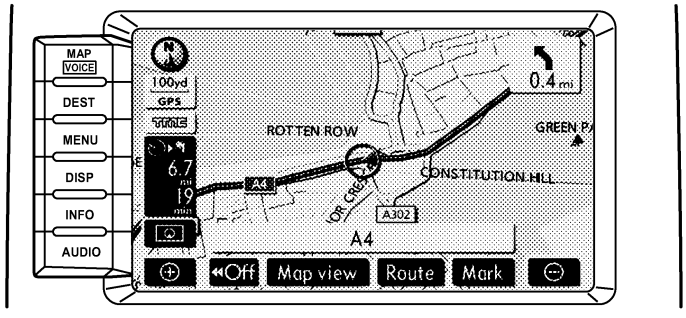

Multi Display

- A multi display has been provided on the center cluster panel as optional equipment. The display, which consists of a wide 8.0-inch LCD (Liquid Crystal Display) screen with a pressure sensitive touch panel, is easier to use.
- The items listed below are the main functions of the multi display:
  - Navigation Screen Display
  - Audio Screen Display
  - Air Conditioning Screen Display
  - Rear View Monitor Screen Display
  - Telephone Operation Screen Display
  - Language Selector Screen Display*
  - Adjustment Screen Display

*: Only for European models

- Through the use of the GPS (Global Positioning System) and the map data in a DVD (Digital Versatile Disc), this navigation system analyzes the position of the vehicle and indicates that position on the map that is displayed on the screen. Additionally, it provides voice instructions to guide the driver along the route to reach the destination that has been selected.
- The language of the voice navigation can be selected from among 10 languages*: English, German, French, Dutch, Italian, Danish, Swedish, Spanish, Portuguese and Norwegian.
- The navigation system employs a voice recognition function with a voice recognition microphone installed in the overhead console. The voice recognition function can be turned on and off using the switch on the steering wheel.

*: Only for European models

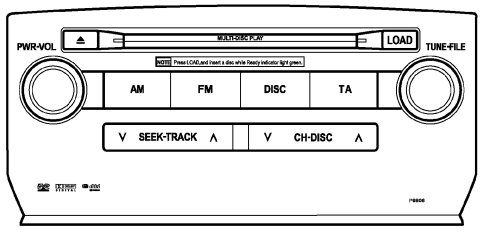

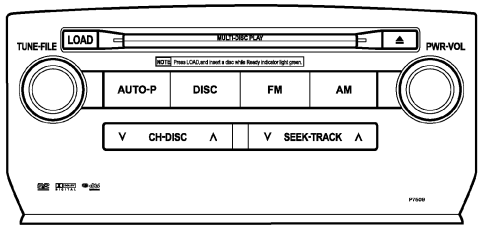

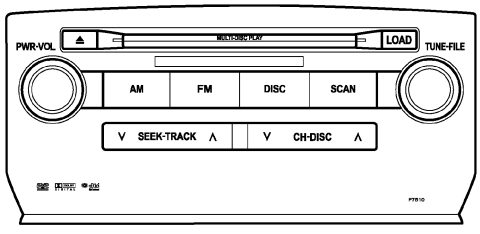

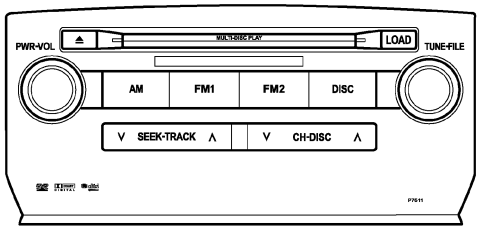

081MO27Y

Audio System

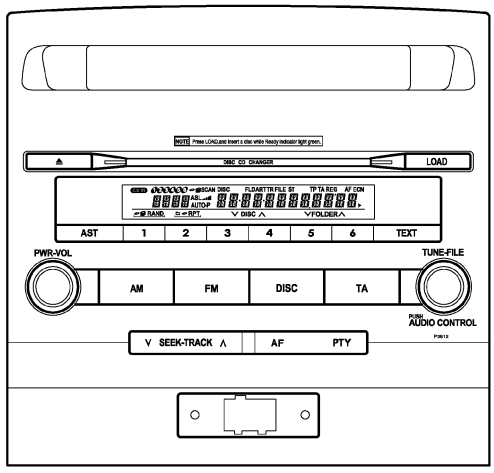

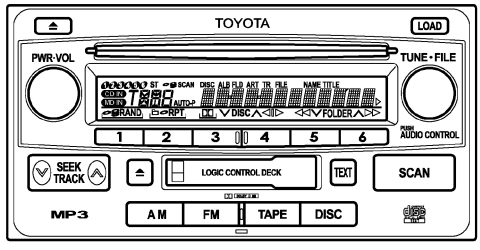

On the new Land Cruiser, “Pioneer” and “Panasonic” sound system is provided.

Audio Head Unit

The six types of radio receiver assembly are available. For information regarding which of the following optional equipment is available for each destination, refer to the equipment list on page MO-33.

Application	Design	Specifications
Option*1	 081MO28TE	• Multi Display • AM/FM/LW Tuner • In-Dash 6-DVD Changer (MP3, WMA Compatible*2) • RBDS*3 function/DSP*4/ASL*5 • 9-Speaker System • Maker: Pioneer (Head Unit, Stereo Amplifier, Speaker)

Winch

- An electric winch is provided. The electric winch is operated using a winch control switch connected via a cable.
- The winch assembly consists of a winch motor, clutch mechanism, deceleration mechanism, winch wire and magnet switches.
- FREE or LOCK can be selected manually by operating the winch clutch lever.
  - When FREE is selected, the winch wire can be pulled out by hand.
  - When LOCK is selected, the winch wire can be pulled out or wound back automatically by using the winch control switch.
- The winch motor uses a thermo switch, which warns the user if it overheats by illuminating the motor overheat warning light and sounding a buzzer.
- For details about electric winch settings, refer to the Equipment List (MO-33).

Suspension

Suspension System	● KDSS (Kinetic Dynamic Suspension System) ● 4-Wheel AHC (Active Height Control Suspension) & AVS (Adaptive Variable Suspension)
Front Suspension	Double-wishbone Type Independent Suspension
Rear Suspension	4-link Coil Spring with Lateral Rod Type

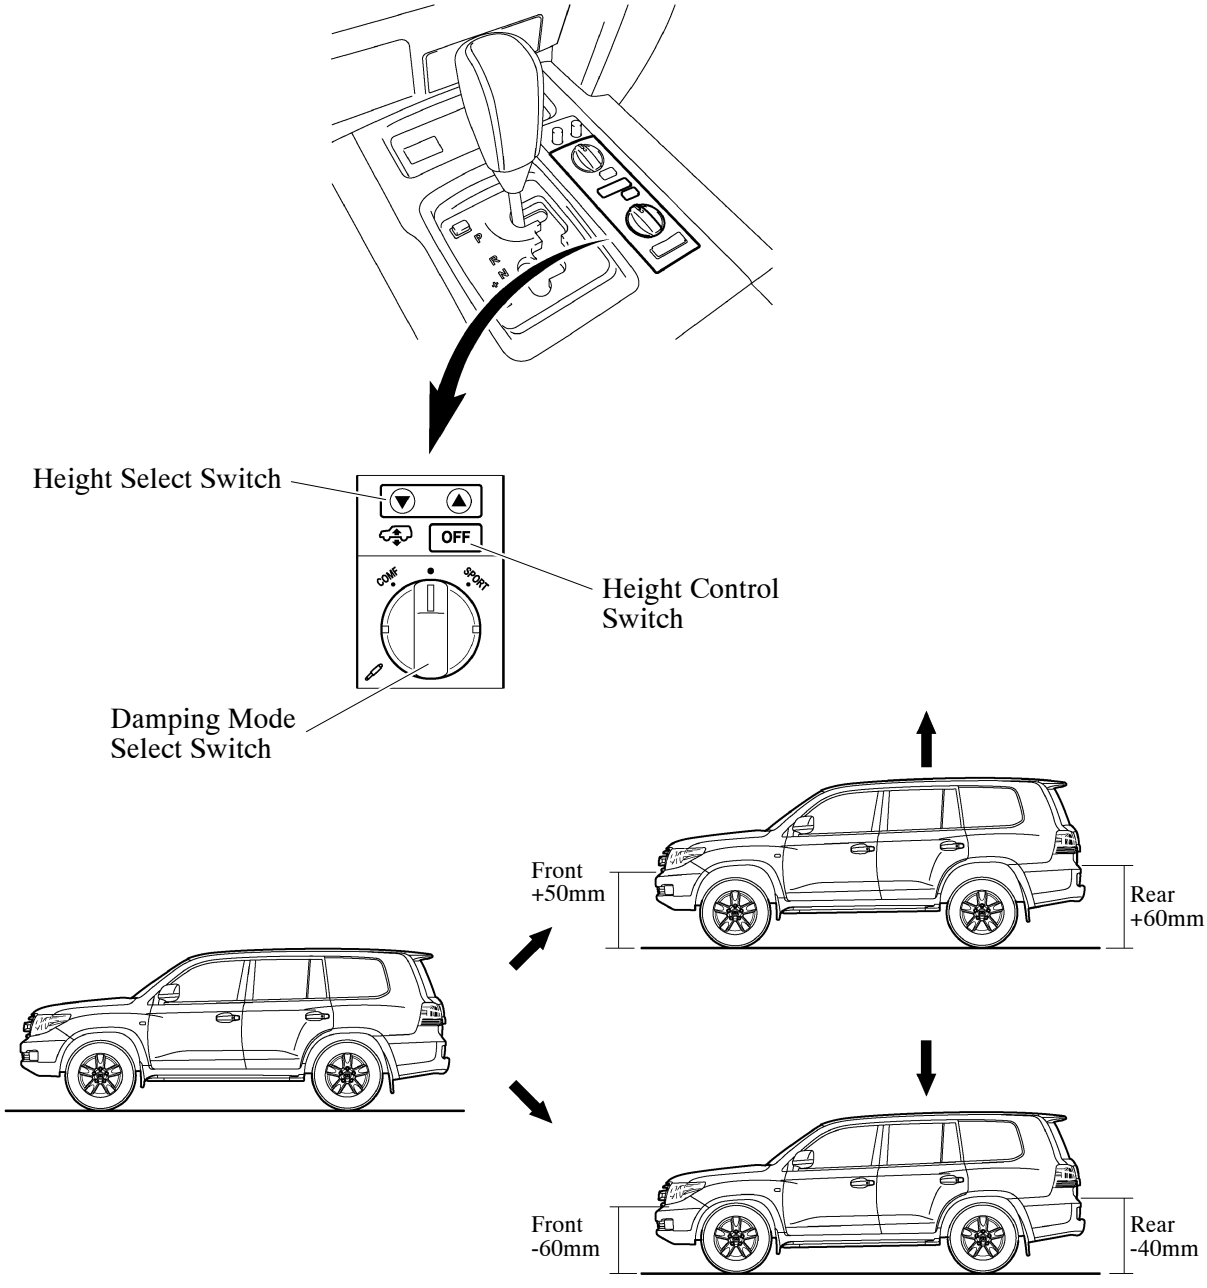

KDSS (Kinetic Dynamic Suspension System)

- The KDSS (Kinetic Dynamic Suspension System) consists of a hollow stabilizer bar at the front and a sold stabilizer bar at the rear to realize the proper rolling rigidity of the vehicle, and two hydraulic stabilizer control cylinders to deliver excellent off-road driving performance.

4-Wheel AHC (Active Height Control Suspension) & AVS (Adaptive Variable Suspension)

In this active height control suspension, the height control, damping force control, spring rate control and 4-wheel related control are individually controlled by the coil spring, nitrogen gas springs and hydro-pneumatic suspension, thereby delivering high on-road and off-road driving performance.

081MO34TE

Steering

Steering Type	● Hydraulic Power Steering ● VGRS (Variable Gear Ratio Steering) System
Gear Type	Rack & Pinion

Brake

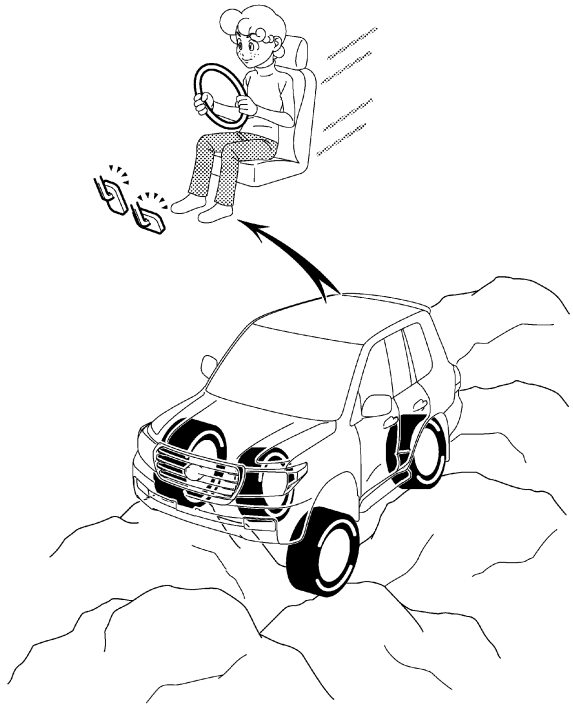

Front Brake Type		Ventilated Disc
Front Rotor Size	mm (in.)	340 × 32 (13.39 × 1.26)
Rear Brake Type		Ventilated Disc
Rear Rotor Size	mm (in.)	345 × 18 (13.59 × 0.71)
Brake Control System		● Multi-terrain ABS with EBD, Brake Assist ● Multi-terrain ABS with EBD, Brake Assist, VSC, A-TRC, Hill-start Assist Control and Downhill Assist Control ● Multi-terrain ABS with EBD, Brake Assist, VSC, A-TRC, Hill-start Assist Control and CRAWL

Multi -terrain ABS

The conventional ABS, by regulating the hydraulic brake pressure of all the wheels by monitoring the wheel speeds during braking, prevents the wheels from locking when braking to ensure the vehicle stability and the steering maneuverability. The newly provided Multi-terrain ABS has a function that detects the off-road ground conditions such as sand, mud, or gravel via information such as the engine output, vehicle acceleration rate, and wheel speeds, and then selects the optimum ABS control in accordance with the situation. As a result, the braking feel in off-road driving has been enhanced.

CRAWL

The CRAWL, a driving support system which aids the driver when the vehicle is driven on very bumpy or slippery roads, has been newly added. When the CRAWL is active, the engine output and the brake force are automatically regulated, thus enabling the vehicle to run at a constant speed. As a result, the driver is allowed to concentrate on maneuvering the steering wheel with less accelerator and brake pedal operation.

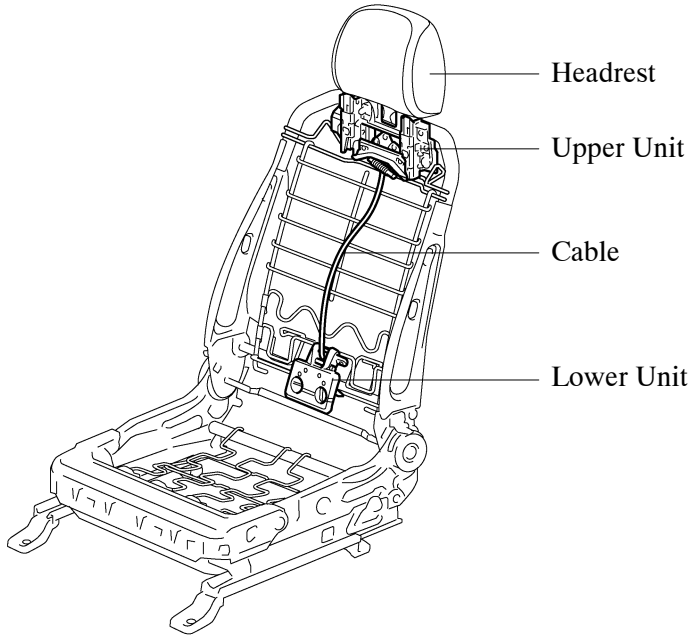

080CH05TE

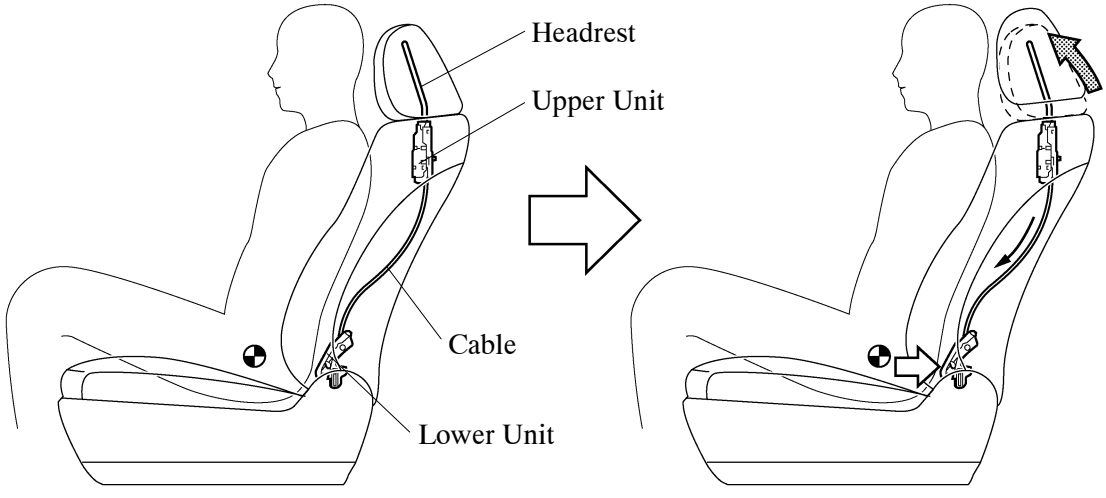

SAFETY

Active Head Rest System

- Active headrests are provided*, which move up and forward almost instantly in the event of a rear-end collision when the force of the occupant body is applied to the seat back and reduce the distance between the occupant's head and the headrest.
- The active headrest consists of the lower unit, cable and upper unit.
- When the lower unit built into the seat back is pressed by the occupant's lumbar as the occupant's body slides down during a rear-end collision, the cable is pulled and the headrest is moved up and forward by the upper unit, reducing the distance between the occupant's head and the headrest.

*: Standard on European models and Chinese VX grade models

080BO33Y

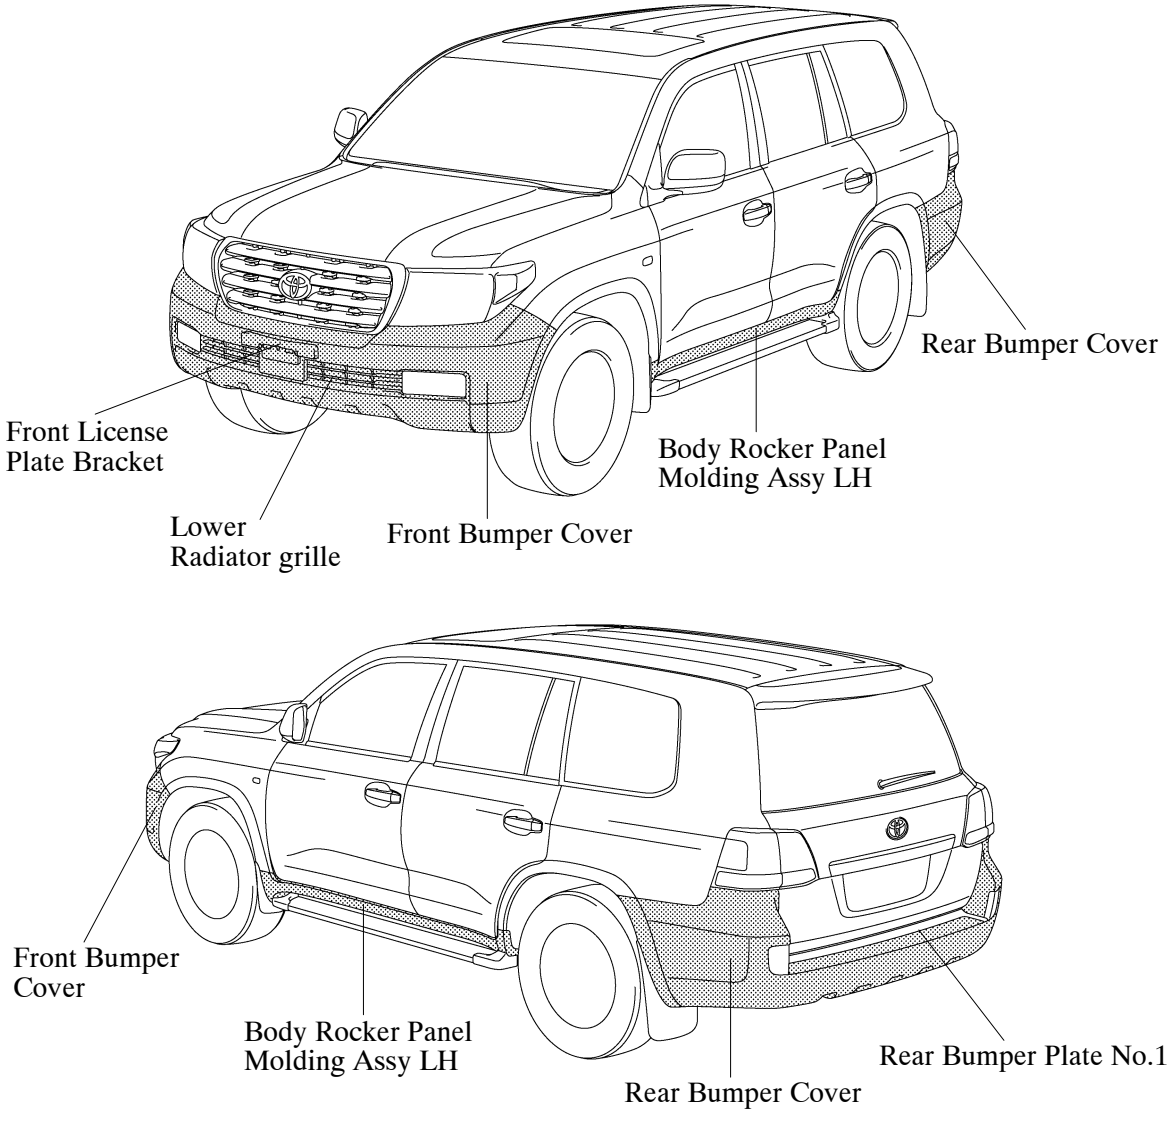

Normal Position **Operating Position**

ENVIRONMENT and RECYCLING

Adoption of TSOP

TSOP (Toyota Super Olefin Polymer), which have superior recyclability, are actively utilized while the use of chlorine has been reduced as much as possible.

: TSOP (Toyota Super Olefin Polymer)

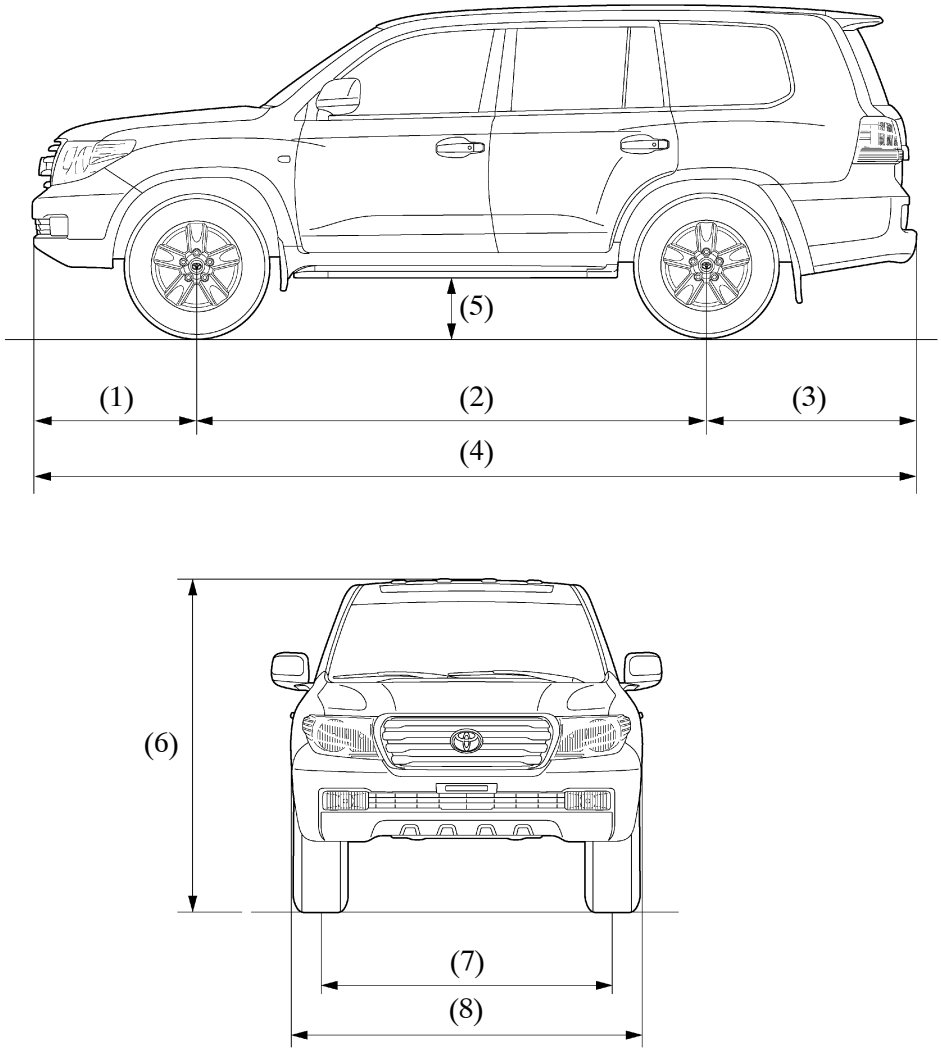

081MO21TE

Adoption of Lead-free Parts

By using lead-free parts, the adverse impact on the environment has successfully reduced.

Main Lead-free Parts
• Radiator • Heater Core • Wiring Harness • Window Glass Black Coating • Wheel Balance Weight

*1: Only on models with 2UZ-FE engine
*2: Only on models with 1VD-FTV engine
*3: Provided on all package models for Russia and United Kingdom
*4: Provided on all package models for United Kingdom
*5: Only on Russian package models
*6: Except Russian package models
*7: Available on right-hand drive models equipped with kinetic dynamic suspension system.
Provided on all package models equipped with 5-speed automatic transmission for Russia, Turkey, New Caledonia, Central America, French Guiana, Gibraltar, Guadeloupe, Reunion and Martinique, and all package models equipped with 6-speed automatic transmission and kinetic dynamic suspension system for Russia, Turkey, French Guiana, Gibraltar, Guadeloupe, Reunion and Martinique.
*8: Provided on all models equipped with 4-wheel AHC & AVS other than package models for French Guiana, Gibraltar, Guadeloupe, Reunion and Martinique
*9: Provided when wood-grain shift knob is installed on models equipped with kinetic dynamic suspension system
*10: Provided on all models equipped with active height control suspension system
*11: Provided on all models equipped with 4-wheel AHC & AVS and all models equipped with power seat with memory function
*12: Except package models with South Africa, Russia, Turkey, New Caledonia and Central America.
*13: Only on driver seat
*14: Provided on all models with genuine leather seats
*15: Available on models with pre-crash safety system
*16: Provided on all models equipped with power tilt & telescope mechanism with memory
*17: Provided on all package models equipped with power tilt & telescope mechanism with memory for Denmark, Norway, Sweden, and Iceland.
Available on package models equipped with power tilt & telescope mechanism with memory for Belgium, Finland, Italy, Netherlands, Switzerland, Portugal, France, Spain, Austria, Poland, Slovenia and Hungary.
*18: Available on right-hand drive models other than those for United Kingdom and package models other than those for Russia, French Guiana, Gibraltar, Guadeloupe, Reunion and Martinique.
(Not available in Ecuador, Columbia, Ukraine, Croatia, Macedonia, Israel, Serbia and Montenegro)
*19: Provided on right-hand drive models for United Kingdom and available on package models other than those for Russia, French Guiana, Gibraltar, Guadeloupe, Reunion and Martinique.
(Not available in Ecuador, Columbia, Ukraine, Croatia, Macedonia, Israel, Serbia and Montenegro)
*20: Only on cold area specification models
*21: Only on cold area specification models with 1VD-FTV engine
*22: Available on 7-seater models
*23: Available on right-hand drive models and package models other than those for Turkey, New Caledonia and Central America
*24: Provided on all package models for South Africa, New Caledonia and Central America
*25: Only on left-hand drive 8-seater models
*26: Only on 5-seater and right-hand drive 8-seater models
*27: 5-seater type Curtain Shield Airbags extend from the front seat to the rear No.1 seat

*28: Available on models with genuine leather seats
*29: Provided on all 5-seater cold area specification models with genuine leather seat and all 7-seater models with genuine leather seats except cold area specification models.
Available on 5-seater models with genuine leather seats except cold area specification models.
*30: Provided on all 7-seater models with genuine leather seats
*31: Provided on all models equipped with EC mirror type outside rear view mirror
*32: Provided on all right-hand drive models and models equipped with navigation system other than package models for Turkey, New Caledonia and Central America
